PROFILE

Full-Stack & Android developer and Software Engineering student (3rd year) focused on building scalable, efficient, user-friendly web and mobile applications. Strong across both frontend and backend development, with a bias toward clean architecture, responsive UI, and reliable APIs. Actively learning modern technologies and looking for opportunities to gain practical experience, contribute to impactful projects, and grow as a professional developer.

EXPERIENCE

Freelance / Personal Projects

- Developed responsive web applications and mobile apps.
- Built RESTful APIs and integrated frontend with backend systems.
- Practiced clean code and version control using Git.

PROJECTS

Campus Connect Portal

Role-based web portal for students and teachers with course updates, assignment tracking, and secure authentication.

React / TypeScript / Bootstrap / Node.js / MySQL

Freelance Invoice Manager

Full-stack dashboard to generate invoices, track payments, and export monthly reports.

Next.js / TypeScript / Tailwind CSS / MySQL / Prisma

DevForum Community

Discussion platform with topic channels, threaded comments, and moderation tools.

JavaScript / React / Bootstrap / MongoDB / Express.js

EDUCATION

B.Sc. in Software Engineering (3rd Year)

Haramaya University • Ethiopia
Expected graduation: —

HIGHLIGHTS

- Built multiple full-stack and mobile projects.
- Strong problem-solving and debugging skills.
- Active learner of modern technologies.
